Met with a group to discuss the Rodriguez Street issues in Gibsonburg. They talked about the Street itself and Jim Moyer stated this road is a private road. Commissioner Reiter asked Gibsonburg if the street was truly a dedicated private road or is it a Village roadway. The Village maintains the road, is this out of courtesy or obligation? Jim Moyer briefed the group on

differences between private and public roads. In 1998 it is recorded that the street was turned over to the Village.

Steve Shiets presented a possible plan and some rates that would reflect with the plan. If the project and improvements are done by the County it would cost residents more than if they were annexed into the Village and charged Village rates.

Greg Telecky sat in on the work session and had posed the option of possibly the Village signing a variance through a resolution due to the uniqueness of the situation.

The Village and Township will set up a meeting with the residents to discuss the project and the need to get them on board knowing the monthly costs for them if the improvements are made and assuming grant money is available to complete the majority of the project. There are several avenues that could be applied to the project.

There is a way that we can use several funds to leverage with each other. WSOS is going to put together a plan on how to stack these options.

Public forum portion of session proceeded.

Media attendees: Melissa Topey, Sandusky Register. Craig Shoup, News Messenger. Tom Fullen, WFRO.
